Webhook Integration

Plugins and Tools

-  **Wordpress Plugin** [View >](#)
-  **Shopify Plugin** [View >](#)

Webhook Integration

You can choose to integrate webhook for status updates of your individual delivery. You only need to provide us with a Callback URL and Webhook secret, where you will receive a POST request containing event details.

- ☐ Your URL should be reachable.
- ☐ Your URL should be resolved within 3 redirections.
- ☐ If using HTTPS, your SSL certificate should be valid.
- ☐ Your URL should respond within 10 seconds.
- ☐ Your URL should return status code 202 for this specific event.
- ☐ Your URL should return a response with header X-Pathao-Merchant-Webhook-Integration-Secret .
- ☐ The header X-Pathao-Merchant-Webhook-Integration-Secret value should be exactly f3992ecc-59da-4cbe-a049-a13da2018d51 .

To integrate webhook, you will received the following body:

```
{
  event: "webhook_integration"
}
```
